☒ ☒ Willamette Valley Intergroup's Central Office...Serves groups, members and the public. It provides services for groups that would be too much for them to handle by themselves. More than 200 people contact the office and after hours phone line every month. What does it do? It staffs a 24-hour phone line, prints meeting schedules, spreads information on area events, coordinates 12-step calls, maintains the website, brings meetings to hospitals & institutions, and sells A.A. literature & other recovery items. How much does it cost? An average of \$2,400 every month. For bills like the phone, rent, internet, and printing of schedules. Where does the money come from? Voluntary contributions from groups & individuals, sales of program materials, special coins, etc... Why do we need it? When anyone, anywhere, reaches out for help, I want the hand of A.A. always to be there. And for that, I am responsible. Can you help with a contribution?
